Of the 18% who said they had heard of the website

86% said they had used the website

14% said they haven't used the website

Of the 86% who said they have used the website

50% found parts of it helpful

17% found it very helpful, 33% found it not helpful

46% said there are services they need, but are not getting

54% said there are no services they need

The 46% said they need:

Occupational therapy

Help with managing challenging behaviour

Access to education

EHC assessment

Counselling services

2:1 support at school

After school clubs

Additional comments:

My school is very good and are accepting of my differences but they don't notice I'm struggling to make friends and I never speak in class unless I have to.

I had to wait almost a year for 6 weeks of counselling and would liked this sooner.

I enjoy school very much and hope when I transfer in two years time there will be good support to help me.

I'm not in school and I'm not learning anything. I want to go to the right school for me but there are no places.

Thank you for taking part in the survey. We have shared your answers with professionals from education, health and social care. They are using this information to help them improve how they work with all children and young people.

We will run another survey in autumn, which you will be able to find on **Bristol's Local Offer** website.
